

## History

Data Link was founded in 1999 in Murray, KY. In the beginning, we provided voice and data cabling in parts of Tennessee, Kentucky and Indiana. Our migration into physical security began in 2004 with our first install of an IP Camera in Evansville. We have never looked back. While physical security has grown to be our largest competency, we still maintain our structured cabling installation roots.

## What We Do

### Physical Security Integration

- ✓ Video Surveillance
- ✓ Access Control
- ✓ Door Locking Hardware
- ✓ Audio/Paging  
Mass Notification/Mustering
- ✓ Enclosure Access Management

### Additional Services

- ✓ Design & Engineering
- ✓ 24/7/365 help desk
- ✓ Multi-location deployment
- ✓ Project Management

### Infrastructure Solutions

- ✓ Structured Cabling: Copper & Fiber Optic Cabling
- ✓ Digital Antenna Systems  
(enhanced indoor cell phone & first responder radio coverage)
- ✓ Wireless

## Just the Facts

- ✓ Operating in 6 States IN, OH, KY, VA, SC, MI
- ✓ Servicing corporate, manufacturing, transportation, healthcare and education industries
- ✓ Supporting customers across the US and internationally
