

# CUSTOM SECURITY & INFRASTRUCTURE SOLUTIONS ENGINEERED FOR HEALTHCARE

Healthcare facilities face unique security challenges, from safeguarding sensitive patient data to ensuring a secure environment for care. Data Link has a proven track record of success in the healthcare industry. We design, install and maintain custom physical security and infrastructure solutions for healthcare facilities across the country. Whether you're a single office or a multi-site hospital network, our goal is simple: to make your security smarter, stronger, and easier to manage.

## SMART. SEAMLESS. SECURE.

We don't just install hardware; we solve safety and security problems. Our team takes a proactive, end-to-end approach. That means evaluating your current systems, identifying vulnerabilities, and creating a scalable, future-ready solution that integrates with your existing infrastructure and workflows. We build for today with tomorrow in mind, ensuring compliance, adaptability, and ease of use.

## WHY HEALTHCARE FACILITIES TRUST DATA LINK

- Compliance with HIPAA and healthcare regulations.
- 24/7 expert support from a team fluent in healthcare operations.
- Customizable solutions to meet different budget and facility sizes.
- Seamless integration with your current software and equipment.

## WHO WE SUPPORT

- Hospitals & Emergency Rooms
- Clinics & Specialty Practices
- Physician & Administrative Offices
- Pharmaceutical and Research Facilities
- Radiology & Nuclear Medicine Storage Sites
- Behavioral Health Facilities

## WHAT WE DELIVER

- Video surveillance systems
- Analytics and AI-enhanced security solutions
- Advanced access control & door hardware systems
- Infant and memory care patient tracking integrations
- Integrated panic buttons and body-worn cameras
- Clinical fainting detection and patient safety alerts
- Indoor air quality monitoring
- Secure telehealth & mobile room-to-room cameras
- Streamlined visitor check-in and management systems
- Facility-wide paging solutions
- Private networks for enhanced communications
- DAS (Distributed Antenna Systems) for strong patient and staff cellular coverage and first-responder connectivity

## SLEEP BETTER. OPERATE SAFER. STAY AHEAD.

Security shouldn't keep you up at night—it should help you rest easy. With Data Link, your facility's safety is in the hands of people who know healthcare inside and out.
